### Premium Flexibility

If you are age 90 or younger, you can establish an SRA with a premium amount of your choice, ranging from \$15,000 to \$1,000,000 (or more with prior home-office approval). Additional premiums will be accepted within the first 90 days of the contract and will receive the interest rate in effect at the time the premium is received in the home office.

### Principal Guarantee

You or your beneficiary will never receive less than 100% of your premium paid, net of withdrawals and TSA loans (including applicable interest) taken.

### Interest-Rate Guarantee

Your premium will be credited a guaranteed interest rate during the guarantee period — the first one, three, five or six years of the contract, depending on the option you choose. After the guarantee period, the premium will receive a renewal rate based on the current interest-rate environment.

### Minimum-Rate Guarantee

Your contract will include a minimum guaranteed rate, below which your renewal rate will never fall.

### Additional Interest

On the SRA 1 only, the premium payment is credited 1% additional interest for one year from receipt in the home office. Also on the SRA 1 only, at the end of the seventh year the annuity will be credited 1% of the initial premium amount; at the end of each subsequent year the annuity will be credited 0.25% of the initial premium amount.

### Bailout-Rate Guarantee

On the SRA 1 only, in years two through five, the premium payment is assigned a bailout of 1% less than the initial rate; in year six, it is assigned a bailout of 2% less than the initial rate. If your crediting rate falls below the bailout rate, you may withdraw funds without a surrender charge.

## Surrender Period Options

You may withdraw all or a portion of your annuity funds at any time. However, surrender charges may apply to withdrawals taken during the surrender period. The surrender charges below represent a percentage of the annuity's balance.

## Freedom to Change Your Mind

From the date you receive your annuity contract, you have 30 days to consider your decision. If you decide to terminate the transaction during the 30 days, we will return your premium.

## Accessing Funds

The SRA offers a variety of ways to access funds from your annuity without incurring a surrender charge.

### Payments of Interest Earnings

After an initial 30 days, you may receive interest payments without a surrender charge.

### 10% Annual Withdrawals

After the first contract year, you may annually withdraw up to 10% of the previous-contract-year's annuity value without a surrender charge.

### Minimum Distributions

If your contract is held as an IRA, TSA or other qualified plan, you may receive IRS Required Minimum Distributions without a surrender charge.

### Substantially Equal Periodic Payments

Beginning immediately, you may receive 72(t) or 72(q) withdrawals without a surrender charge.

### Waivers

After the first contract year, if you become a nursing home resident for 30 or more consecutive days, or if you incur a terminal condition, you may withdraw from your annuity without a surrender charge.

The nursing home waiver is not available in Massachusetts and state-specific conditions apply to the terminal condition waiver.

### Annuitization

At any time, if you convert your SRA into a payout annuity with The Standard and choose either a lifetime or a period-certain option of five years or more, you will begin receiving guaranteed income payments without a surrender charge. On the SRA 3 only, there is a bonus of 2% of the annuity's value credited when you annuitize the contract after the fourth year, choosing one of the options listed above.

The SRA 3 annuitization bonus is not available in Washington.

The following applies if the annuity is purchased through a bank or a credit union: (a) the annuity is not a deposit; (b) the annuity is not guaranteed by any bank or credit union; (c) the annuity is not insured by the FDIC or any other governmental agency; (d) the purchase of an annuity is not a provision or condition of any bank or credit union activity; and (e) some annuities are subject to investment risk and may go down in value.
