

Max Builder With In-Network Bonus

Help Employees Manage Costs And Maximize Benefits

Employers can help employees manage costs and make the most of their dental insurance benefits by adding the Max Builder¹ option and In-Network Bonus² program to their Dental insurance from The Standard.[‡]

The Max Builder option gives insured members and their dependents the opportunity to build their annual benefit maximums from year to year – as long as they see a dentist at least once a year and do not exceed their annual benefit threshold. They can also earn a bigger increase in their benefit maximums by receiving an In-Network Bonus for visiting a dentist in the Ameritas network, available to employees insured by The Standard.

Building Annual Benefit Maximums Is Simple

Employers can choose from a range of annual benefit maximums. The following example shows a dental plan with an annual benefit maximum of \$1,000. By visiting an in-network dentist once per plan year and staying below their benefit threshold of \$500, insured members could build their annual benefit maximums with Max Builder and In-Network Bonus. However, if an employee does not file a claim in any year or there is a 12-month or longer break in coverage, the increases are lost and the annual benefit maximum returns to the plan's base amount, which is \$1,000 in this example. Employees would then have the opportunity to start building their maximums again.

Example	Annual Benefit Maximum	Annual Benefit Increase	In-Network Bonus ²
Year 1	\$1,000	\$250	\$100
Year 2	\$1,350	\$250	\$100
Year 3	\$1,700	\$250	\$50
Year 4 and beyond	\$2,000	None	None
