Tailored Income Annuity

The Tailored Income Annuity from The Standard is a single-premium, immediate annuity. This annuity can provide the transition from an accumulation phase to an income phase of retirement, when a safe, secure source of income is critical. It also can be a vehicle to convert large, lump-sum payments of insurance proceeds, divorce settlements or large-ticket sales into an income-producing annuity.

Special options available in the Tailored Income Annuity allow the addition of the Life Income Commutation feature and the Inflation Protection feature to many of the payment options.

The Tailored Income Annuity is an excellent way to maintain an income stream that is matched to personal needs while adding the flexibility of lump-sum payment options.

The maximum issue age on an owner or annuitant for the Tailored Income Annuity is 90.

Tailor The Annuity

Life Income Commutation*

A special, optional feature available in the Tailored Income Annuity allows the addition of a commutation feature to many of the life income payment options.

If this feature is added at the time of application, in any contract year (after an initial two years) up to 10% of future benefits may be commuted to a lump-sum payment. After exercising this feature the remaining payments will be reduced by the percentage commuted. A maximum of 20% of future payments can be commuted over the lifetime of a contract.

* Life Income Commutation is not available in Washington.

Inflation Protection

On many of the income options, an election may be made to guard against the effects of inflation with an annually increasing payment of 1%, 2%, 3%, 4% or 5%. If this option is selected at the time of application, the increased payments would begin one year after the first payment and would increase annually thereafter.

Commutation is a substitution or exchange of one kind of payment for another. With the Tailored Income Annuity some routine, ongoing payment streams may be “commuted” to a lump-sum payout.
