## Annuity Fund

**A. Premium.**

Premium must be paid to us at our home office.

You may pay additional premium during a limited time period after the Contract Effective Date. See **Contract Data**. Information about your intent to pay premium after the Contract Effective Date is required on the application. Premium accepted after the Initial Account Allocation Date will be allocated to your fixed interest account. No premium will be accepted by us after the Contract Effective Date other than that noted on the application.

**Note:** If a check for the initial premium is not honored when first presented for payment, the Contract is: (a) void; and (b) considered never in force.

**B. Premium Tax.**

Premium tax is imposed on annuities in some states. If a premium tax is assessed when the premium is paid, we will deduct it from the premium payment. If a premium tax is assessed any other time, we will deduct it from the benefit payable or the amount surrendered, as applicable.

**C. Value of the Annuity Fund.**

The value of the annuity fund is used in determining the amount available to provide benefits under the Contract. See **Guaranteed Minimum Value** in **Contract Data**. The value of the annuity fund is determined as shown in **Contract Data**.

**D. Credited Interest.**

**1. Fixed Interest Account(s).**

We will credit interest to the fixed interest account(s) daily.

The initial premium allocated to the fixed interest account(s) will be credited with the initial guaranteed effective annual interest rate. See **Contract Data**. We reserve the right to credit each additional premium paid after the Contract Effective Date and allocated to the fixed interest account(s) with a different effective annual interest rate.

After the initial interest rate guarantee period for each premium ends, the effective annual interest rate may change. However, the interest rates to determine your benefits under the Contract will never be less than those required in accordance with **Guaranteed Minimum Value** shown in **Contract Data**.

## 2. Index Interest Account(s).

We will credit interest to the funds in the index interest account(s) at the end of each Index Term, as applicable. Unless otherwise allowed under the terms of the Contract, no interest will be credited to the funds withdrawn or paid before the end of the applicable Index Term from the index interest account(s). If the Index Change is zero or less for an Index Term, no interest will be deducted from or credited to the applicable index interest account(s).

### Account Allocation

#### A. Allocation.

Premium paid after the Contract Effective Date will be allocated according to your account allocation percentages. The initial account allocation percentages are shown in **Contract Data**.

For a fixed interest account: (a) the initial Account Allocation Date for initial premium is the Contract Effective Date; and (b) the Account Allocation Date for premium paid after the Contract Effective Date is the date we receive the premium. Account Allocation Dates thereafter are the first day of each Index Term.

For an index interest account: see **Contract Data** for the initial Account Allocation Date. Account Allocation Dates thereafter are the first day of each Index Term.

Premium you elect to be allocated to the index interest account(s) will be allocated to the account(s) after all premium is received. Prior to the Initial Index Interest Account Allocation Date, the amount of premium to be allocated to the index interest account(s) will be held and credited with interest at a rate no less than the interest rate applicable to the index interest account(s) for purposes of determining the minimum fund value. See **Contract Data**. Upon receipt of all premium, that portion to be allocated to the index interest account(s) will be allocated as of the Initial Index Interest Account Allocation Date that applies to the index interest account(s). See **Contract Data**.

#### B. Reallocation.

You may elect to reallocate funds among eligible accounts as of the first day of an Index Term that applies to an index interest account. Funds may not be reallocated at any other time. To reallocate funds we must receive Written Notice of your reallocation request at our home office no later than three business days before the Index Term that applies to the eligible index interest account(s). At least \$2,000 of the value of the annuity fund must remain in any index interest account to which you have allocated funds.

The effective date of any reallocation will be the first day of the new Index Term.

An eligible account is: (a) any index interest account for which a new Index Term will begin; and (b) any fixed interest account.

If we do not receive Written Notice of your reallocation request three or more business days before the beginning of the new Index Term of an eligible index interest account, funds will remain in the current account(s) unless we cease to offer an index interest account in which you have funds.

We reserve the right to reallocate funds into the fixed interest account(s) if: (a) we cease to offer an index interest account in which you have funds; and (b) we do not receive Written Notice of your reallocation request with respect to such index interest account at our home office three or more business days before the beginning of a new Index Term. We will inform you of any such reallocation.

Reallocation has a proportionate effect on an account's guaranteed minimum value. See **Guaranteed Minimum Value** in **Contract Data**. The minimum nonforfeiture value is adjusted as follows:

**1. Account from which funds are reallocated.**

The account's minimum nonforfeiture value is reduced by:

$$A \text{ times } \left( \frac{B}{C} \right); \text{ where:}$$

A = The account's minimum nonforfeiture value before reallocation.

B = The amount reallocated.

C = The account's value before reallocation.

**2. Account to which funds are reallocated.**

The account's minimum nonforfeiture value is increased by:

$$D \text{ times } \left( \frac{E}{F} \right); \text{ where:}$$

D = The sum of all reductions to the minimum nonforfeiture value from other accounts, as determined in 1 above.

E = The sum of the amounts reallocated to the account.

F = The sum of all reallocated amounts to all accounts.

For purposes of the above calculations, account fund values are first reduced by any fees and charges that apply to reallocations.

## Benefit Provisions

---

### Annuity Benefits

**A. Annuity Benefit Payments.**

Annuity benefit payments are paid to the Owner(s). Annuity benefit payments, i.e. Annuitization, will begin if:

1. An Annuitant is alive on the Annuity Date;
2. No payment of death benefits has begun; and
3. The payment option has been selected and we have approved the choice.

**Note:** Our approval is based on our determination of whether or not: (a) the payment option is available under the Contract; (b) the payment option conforms to applicable IRC regulations; and (c) the payment option application form is thoroughly and accurately completed. See **A. Payment Options** of the **Payment Options Provisions**.

You may elect to Annuitize the Contract at any time while the Contract is in force provided:

1. No payment of death benefits has begun; and
2. The Contract, or lost contract statement, is returned to us.

**B. Annuity Benefit Amount.**

The annuity benefit is the amount that, when applied to a payment option, determines the annuity benefit payments. The annuity benefit will be:

1. The value of the annuity fund on the date of Annuitization, reduced by a surrender charge, as applicable; or

2. The minimum nonforfeiture value, reduced by any applicable premium tax, as of the date of Annuity Date; whichever is greater. See **C. Surrender Charge** in the **Surrender Benefits** provision.

The annuity benefit is not payable as a lump-sum payment. The annuity benefit payments will be no less than that provided by using the applicable surrender value of the annuity fund as premium for a single premium immediate annuity issued by us at time of Annuity Date.

If, for any reason, we have not begun payments within 30 days after the date such annuity benefit payments are to begin, we will credit interest to the annuity fund on the late annuity benefit payment(s) from the date the annuity benefit payments were to have been paid to the date of payment. We will credit such interest at the rate required by law.

---

## Surrender Benefits

### A. Total Surrender.

You may surrender the Contract during any Annuitant's lifetime on or before the Annuity Date. To surrender the Contract, you must:

1. Provide us with Written Notice of: (a) your intent to surrender the Contract; and (b) your choice of a lump sum surrender or other payment option chosen by you. See **A. Payment Options** of the **Payment Options Provisions**.
2. Return the Contract, or lost contract statement, to us.

The total surrender value equals:

1. The value of the annuity fund on the date of the surrender, reduced by a surrender charge, as applicable; or
2. The minimum nonforfeiture value as of the date of surrender;

whichever is greater. See **C. Surrender Charge** in this **Surrender Benefits** provision.

If the total surrender value is less than \$5,000, we will pay the benefit in a lump sum.

### B. Partial Surrender.

You may request a partial surrender of the Contract during any Annuitant's lifetime on or before the Annuity Date, subject to the following:

1. No payment may be less than \$500.
2. The remaining value of the annuity fund after payment of the partial surrender may not be less than \$2,000.

You must provide us with Written Notice of the amount you wish to surrender. The partial surrender benefit will be reduced by surrender charges, as applicable. Partial surrenders are first paid from the fixed interest account(s). Any remaining partial surrender to be paid after the fixed interest account(s) has been exhausted will be paid from the index interest account(s). We will pay the benefit in a lump sum or according to any other payment option you select.

### C. Surrender Charge.

We will reduce benefits paid under the Contract or any amount you surrender by a surrender charge, as applicable. The amount of the surrender charge equals: (a) the amount to be surrendered or the amount of the benefit to be paid, as applicable; times (b) the surrender charge percentage that applies to the Contract Year in which the surrender or benefit payment occurs. See **Contract Data**.

There will be no surrender charge for a surrender occurring or benefit paid after the end of the last Contract Year in which surrender charges apply. There will be no surrender charge for Annuitization or a surrender occurring on or after the Annuity Date.

**D. Deferral.**

Subject to written request of and approval by the Commissioner or Director of Insurance, we may defer payment of a total or partial surrender for up to six months. If we are going to make such deferral, we will notify you by Written Notice. If we defer such payments for more than 30 days, we will credit interest to the deferred payment from the date of the deferral to the date of payment. We will credit such interest at the rate required by law.

**Death Benefits**

**A. Death of Owner.**

We will pay a death benefit if: (a) an Owner dies before the Annuity Date; or (b) you are a non-natural Owner (e.g., corporation or trust) and any Annuitant dies before the Annuity Date. The death benefit will be paid as follows:

1. To the surviving joint Owner, if any; otherwise
2. To the Beneficiary, if living; otherwise
3. To your estate, if you are a natural Owner; otherwise
4. To the Annuitant's estate if you are a non-natural Owner;

except that a surviving joint Owner may elect to continue the Contract.

The death benefit will be paid under **Restriction of Choice**.

**B. Death of Annuitant.**

No death benefit is payable upon death of an Annuitant before the Annuity Date unless the Owner is: (a) the Annuitant; or (b) a non-natural Owner. See **Death of Owner**.

**C. Amount of Death Benefit.**

The amount of the death benefit equals:

1. The value of the annuity fund on the date of death, reduced by a surrender charge, as applicable; or
2. The minimum nonforfeiture value as of the date of death;

whichever is greater. See **C. Surrender Charge** in the **Surrender Benefits** provision.

**D. Payment of Death Benefit.**

In order to pay a death benefit, we must receive proof of death satisfactory to us, including one of the following, as applicable:

1. A certified death certificate.
2. A certified decree of a court of competent jurisdiction as to the finding of death.
3. A written statement by a medical doctor who attended the deceased.
4. Any other information required under state or federal rules, e.g. tax withholding, qualified domestic relations order, etc.

Also, in order to pay a death benefit, the Contract, or lost contract statement, must be returned to us.

Payment of the death benefit will be made: (a) in a lump sum; or (b) under any other payment option chosen by you. See **Payment Options**. If you did not choose a payment option before the date of your death, the surviving joint Owner or Beneficiary must choose a payment option within 60 days after we receive proof of death satisfactory to us. If no payment option has been chosen within those 60 days, we will make payments under the “life income with 10-year certain period” payment option. However:

1. See **Restriction of Choice** for payment options regulated under the Internal Revenue Code, where applicable.
2. If the death benefit is less than \$5,000, payment will be in a lump sum.

If, for any reason, we have not begun payments within the time required by law, we will credit interest to the annuity fund as required by law to the date of payment. We will credit such interest at the rate required by law.

#### **E. Restriction of Choice.**

A chosen payment option may be restricted or modified according to the Internal Revenue Code Section 72(s), if:

1. You are a natural Owner and die before the Annuity Date; or
2. You are a non-natural Owner and any Annuitant dies before the Annuity Date.

In either case the death benefit must be paid as follows:

1. The total death benefit must be paid within five years of the date of death; or
2. The surviving joint Owner or surviving Beneficiary may elect to have payments paid over the lifetime of the joint Owner or Beneficiary, provided:
  - a. The payments must begin within one year of the date of death; and
  - b. Payments are not to extend beyond the joint Owner’s or Beneficiary’s life expectancy.

**Exception.** The Contract may be continued rather than the death benefit being paid, as follows:

1. If your spouse is the surviving joint Owner, the Contract may be continued.
2. If: (a) there is no surviving joint Owner; and (b) your spouse as recognized under federal law is the surviving Beneficiary; then (c) the Contract may be continued as though the spouse were the Owner.

Any instructions or designations of the prior Owner(s) will continue unless changed in accordance with the terms of the Contract by the succeeding Owner(s).

Unless otherwise permitted under the Internal Revenue Code of 1986, as amended, if you die after annuity benefit payments have begun, the remaining portion of your annuity benefit payments, if any, will be paid at least as rapidly as under the method of payment being used as of the date of your death.

For purposes of this **Restriction of Choice** provision, if: (a) the Owner is a non-natural Owner; and (b) any Annuitant dies; then (c) such Annuitant will be treated as the Owner.

#### **F. Beneficiary.**

Beneficiary means a person or entity you name to receive death benefits. You may name one or more Beneficiaries. You may name or change Beneficiaries and you may provide for more than one class of Beneficiary at any time by providing us with a written designation. A Beneficiary designated as irrevocable may not be changed without the written consent of that Beneficiary. Your designation:

1. Must be dated and signed by you.
2. Must be delivered to us while: (a) the Contract is in force; and (b) you are living.

A change in Beneficiary is subject to our approval. Our approval is based on whether or not such change is requested by someone who has the legal authority to effect such change. The effective date of any change in Beneficiary will be: (a) the date your Written Notice of such change is signed by you; or (b) the date you request in your Written Notice; whichever is applicable. We are not liable for any action taken by us prior to our approval.

We will pay death benefits to the Beneficiary(ies) in the highest class in which there is a surviving Beneficiary. If you name two or more Beneficiaries in a class:

1. Two or more surviving Beneficiaries will share equally, unless you provide for unequal shares.
2. If you provide for unequal shares in a class and two or more Beneficiaries in that class survive, we will pay each surviving Beneficiary the applicable designated share. Unless you provide otherwise, we will pay shares otherwise due to any deceased Beneficiary(ies) to the surviving Beneficiaries pro rata based on the relationship: (a) the proportionate share of each surviving Beneficiary; bears to (b) the total shares of all surviving Beneficiaries in that class.
3. If only one Beneficiary in a class survives, we will pay the total death benefits to that Beneficiary.

#### **G. Surviving Beneficiary.**

The Beneficiary must survive you by at least 15 days in order to receive death benefits. Benefits will be paid as if the Beneficiary died before you if a Beneficiary dies: (a) on the same day you die; or (b) before the end of the 15-day period from your date of death.

#### **H. No Surviving Beneficiary.**

If: (a) death benefits are payable to a Beneficiary; and (b) there is no designated Beneficiary; or (c) there is no surviving Beneficiary:

1. Benefits will be paid to your estate; or
2. If you are a non-natural Owner, benefits will be paid to: (a) the Annuitant's estate; and (b) the joint Annuitant's estate, if any.

#### **I. Payment in Advance.**

A Beneficiary may not commute, encumber, alienate, or assign any payments under the Contract before they are due. Also, no payments will be subject to the debts, contracts, or engagements of the Beneficiary unless: (a) such payment complies with applicable state and federal law; and (b) we have provided you with prior Written Notice of our consent. However, a Beneficiary who is also the Owner has all rights as Owner under the Contract.

## Payment Options Provisions

### A. Payment Options.

You may choose amounts to be paid on a monthly, quarterly, semi-annual or annual mode by providing us with Written Notice of such payment mode before payments begin. The following payment options are available under the Contract. If, at the time of selection, we offer the payment option on a more favorable basis, we will provide the payment option that results in the higher benefits.

#### 1. Option 1: Certain Period.

We will pay equal benefit payments for the certain period you select. If you die before the end of that certain period, we will continue the benefit payments for the balance of the period to: (a) the joint Owner, if any; or (b) the Beneficiary. Benefit payments will automatically cease as of the end of that certain period.

#### 2. Option 2: Life Income Options.

##### a. Life Income.

We will pay equal benefit payments while the Annuitant is living. Benefit payments will automatically cease upon the death of the Annuitant.

##### b. Life Income with Certain Period.

We will pay equal benefit payments for the certain period you select.

If the Annuitant is living at the end of the certain period: (a) we will continue the benefit payments while the Annuitant is living; and (b) benefit payments will automatically cease upon the death of the Annuitant.

If the Annuitant dies before the certain period ends: (a) we will pay benefit payments in the same mode and amount for the balance of the certain period; and (b) benefit payments will automatically cease as of the end of the certain period.

#### 3. Option 3: Joint and Survivor.

##### a. Joint and Survivor Life Income.

We will pay equal benefit payments while either of the Annuitants is living. Upon the death of one Annuitant, we will continue the benefit payments for the life of the surviving Annuitant. Benefit payments will automatically cease upon the death of the last Annuitant.

##### b. Joint and Survivor Life Income with Certain Period.

We will pay equal benefit payments for the certain period you select.

If an Annuitant is living at the end of the certain period, we will continue the benefit payments while an Annuitant is living. Benefit payments will automatically cease upon the death of the last Annuitant.

##### c. Joint and Reduced Survivor Life Income.

We will pay equal benefit payments while both of the Annuitants are living. Upon the death of one Annuitant: (a) we will continue benefit payments for the life of the surviving Annuitant; and (b) the amount of each benefit payment will be the percentage you select of the amount of each benefit payment prior to that Annuitant's death. Benefit payments will automatically cease upon the death of the last Annuitant.

d. **Joint and Contingent Survivor Life Income.**

You must identify a primary Annuitant and a contingent Annuitant. We will pay equal benefit payments while both Annuitants are living. Upon the death of an Annuitant:

1. **Death of primary Annuitant:** We will continue to pay benefit payments for the life of the surviving contingent Annuitant. However, the amount of each benefit payment will be the percentage selected of the amount of each benefit payment prior to that Annuitant's death.
2. **Death of contingent Annuitant:** We will continue benefit payments for the life of the surviving primary Annuitant.

Benefit payments will automatically cease upon the death of the last Annuitant.

**4. Option 4: Lump Sum.**

We will pay benefits in one lump sum.

Other options may be available, subject to our approval.

**B. Choice of Payment Option.**

Choice of payment option may be as follows:

**1. Owner's Choice.**

You may choose or change a payment option by sending us Written Notice: (a) before payments begin; and (b) while the Contract is in force.

**2. Choice by Default.**

If we have not received Written Notice of the payment option before payments begin and while the Contract is in force, the "life income with 10-year certain period" payment option will automatically become effective. If there are joint Annuitants, the "joint and 100% survivor life income with ten-year certain period" payment option will automatically become effective.

**3. Lump Sum Payment.**

If the value of the annuity fund is less than \$5,000, we will pay the benefit in a lump sum.

The choice of payment option may be restricted or modified to comply with the Internal Revenue Code and Regulations.

**C. Required Information.**

We require proof satisfactory to us of gender, if necessary, and Age before the first payment is made under a payment option involving lifetime benefits.

## Owner Provisions

**A. Rights of Owner.**

Subject to the rights of any assignee under an assignment filed with us, you may exercise all rights and privileges under the Contract, including transfer of ownership, provided you exercise such rights while you and the Annuitant are living.

Any change to the Contract must be signed by the Owner(s). A change of Owner is subject to our approval in that it must be allowable under applicable law.

The effective date of any change of Owner will be: (a) the date your Written Notice of change of Owner is signed by you; or (b) the date you request in such Written Notice; whichever is applicable.

**B. Joint Owners.**

Two natural persons may be named as joint Owners. Joint Owners own the Contract as joint tenants with rights of survivorship. While both joint Owners are alive, any Written Notice provided to us must be signed by both Owners.

**C. Assignment.**

You may assign the Contract by providing us Written Notice of your assignment. An assignment will not affect any payment we made or actions taken before we receive and approve your assignment. An assignment is subject to our approval in that it must be allowable under applicable law.

We are not responsible for the validity of any assignment. Any assignment must include written consent by the irrevocable Beneficiary, if any.

The effective date of any assignment will be: (a) the date your Written Notice of assignment is signed by you; or (b) the date you request in such Written Notice; whichever is applicable.

An assignment will make the assignee the new Owner of the Contract. An assignment affects only your ownership of the Contract and does not change the Annuitant or the Beneficiary. However, a collateral assignment will not make the collateral assignee the new Owner. The rights of a Beneficiary are subordinate to those of the assignee unless the Beneficiary has been designated as an irrevocable Beneficiary prior to the assignment.

**D. Payment in Advance.**

An Owner may not commute, encumber, alienate or assign any payments under the Contract before they are due. Also, no payments will be subject to the debts, contracts or engagements of any Owner unless: (a) such payment complies with applicable state and federal law; and (b) we have provided you with prior Written Notice of our consent.

## Annuitant Provisions

**A. Named Annuitant.**

You must name at least one Annuitant under the Contract. You must name a new Annuitant if: (a) the last Annuitant dies before the Annuity Date; and (b) the Contract is in force. If: (a) the last Annuitant dies before the Annuity Date; and (b) no new Annuitant is named; then (c) the Owner will become the Annuitant. With respect to a new Annuitant, the Annuity Date:

1. May stay the same or be changed to an earlier date; but
2. May not be changed to a later date.

The Annuity Date will stay the same unless you provide us Written Notice of your intent to change the Annuity Date to an earlier date.

## B. Change of Annuitant.

Except as noted in **Named Annuitant**, the Annuitant(s) may not be changed unless:

1. The Annuitant is also an Owner and dies, and there is a surviving spouse. In such case, your surviving spouse will automatically become the Owner/Annuitant provided: (a) there is no surviving Owner; and (b) such spouse is also the designated Beneficiary. The Annuity Date for the surviving spouse will be determined using the later of:
  - a. Your birth date.
  - b. Your spouse's birth date.
2. The Owner(s) is a natural person and the Annuitant: (a) dies before the Annuity Date; and (b) is not the Owner's spouse. In such case the Annuity Date:
  - a. May stay the same or be changed to an earlier date; but
  - b. May not be changed to a later date.

The Annuity Date will stay the same unless you provide us Written Notice of your intent to change the Annuity Date to an earlier date.

The Annuitant(s) may not be changed on or after the Annuity Date.

## C. Payment in Advance.

An Annuitant may not commute, encumber, alienate or assign any payments under the Contract before they are due. Also, no payments will be subject to the debts, contracts or engagements of the Annuitant unless: (a) such payment complies with applicable state and federal law; and (b) we have provided you with prior Written Notice of our consent. However, an Annuitant who is also the Owner has all rights as Owner under the Contract.

# General Provisions

## A. Entire Contract; Changes.

The following constitute the entire contract between the parties: (a) the Contract; (b) all attachments, including any amendments, riders, endorsements; (c) the application; and (d) any application supplements. The application and any application supplements are attached to the Contract when issued. The Contract may be changed in whole or in part. However, no one, including an agent, has the authority to change or waive any part of the Contract unless: (a) it is approved in advance and in writing by at least one of our corporate officers; and (b) it is given to the Owner(s) for acceptance and attachment to the Contract.

## B. Contract.

The Contract: (a) takes effect on the Contract Effective Date; and (b) will remain in force until canceled or otherwise terminated. The Contract will be canceled automatically on the earliest of the following dates: (a) the Annuity Date (see **Contract Data**); (b) the date of Annuitization (see **Annuity Benefits**); (c) the Contract is totally surrendered (see **Surrender Benefits**); and (d) the date of payment of death benefits (see **Death Benefits**).

## C. Premium; Credited Interest.

The initial premium, any additional premium, and any interest credited to your annuity fund under the Contract become part of our general corporate funds.

## D. Conformity with Interstate Insurance Product Regulation Commission Standards.

The Contract is approved under the authority of the Interstate Insurance Product Regulation Commission (IIPRC). Any provision of the Contract that, on its effective date, conflicts with the standards of the IIPRC is amended to meet the minimum requirements of those standards applicable to the Contract.

**E. Time Limits on Legal Actions.**

No action at law or in equity may be brought until 60 days after we receive proof of entitlement to benefits. No such action may be brought more than the time period under the applicable statute of limitations of the state in which the Contract is delivered or issued for delivery after the earlier of:

1. The date we receive proof of entitlement to benefits.
2. The time within which proof of entitlement to benefits is required to be given.

**F. Misstatement.**

All statements made in the application and any application supplement, in the absence of fraud, are deemed representations and not warranties. If Age or gender of an Owner or Annuitant has been misstated, we will make an equitable adjustment of benefits so that the amount payable will be such as the premium would have purchased at the correct gender and Age. If we have underpaid any benefits:

1. We will pay the underpaid amount in full with the next benefit payment; or
2. In the case of a single lump sum payment having been underpaid, we will pay the underpaid amount in full within 30 days of our determination of the underpayment.

If we have overpaid any benefits:

1. We will deduct the overpaid amount from future benefit payments until we are paid in full; or
2. In the case of: (a) the total of future benefit payments not being sufficient to cover the overpayment; or (b) a single lump sum payment having been overpaid; then (c) you must repay us the amount of the overpayment within 30 days of our Written Notice to you of the amount of the overpayment.

The interest rate applicable to overpayment and underpayment amounts will be based on the interest rate credited to the annuity fund during the period of the misstatement. However, the interest rate will not exceed: (a) the maximum interest rate allowed by law; or (b) an effective annual interest rate of six percent (6.00%); whichever is less.

**G. Incontestability.**

Subject to **Misstatement**, the Contract is incontestable after the Contract has been in force for two years during your lifetime.

**H. Notice.**

No changes, assignments and requests will affect us unless:

1. They have been signed by the Owner(s);
2. We have received them at our home office; and
3. Where required, we have approved them.

**I. Reports.**

Each Contract Year while the Contract is in force we will provide you with a report. The report will include:

1. The dates of the reporting period.
2. The value of the annuity fund at the beginning and at the end of the reporting period.
3. The interest credited.

SPECIMEN

4. Any partial surrenders and surrender charges.
5. The cash surrender value, if any, at the end of the reporting period.
6. The amount of any outstanding loan balances at the end of the reporting period, as applicable and if allowed under the Contract.
7. The amount of the death benefit at the end of the reporting period.
8. Any other values that may be required by: (a) the standards of the Interstate Insurance Product Regulation Commission (IIPRC); or (b) the laws of the state where the Contract was delivered; as applicable.

You may request such report at any time with Written Notice to us.

**J. Minimum Values.**

Any paid-up annuity, cash surrender values or death benefits that may be available under the Contract will not be less than the minimum benefits required by the NAIC Standard Nonforfeiture Law for Individual Deferred Annuities, Model #805. Death benefits will be at least as great as the cash surrender value.

**K. Effect of Internal Revenue Code.**

The Contract is intended to comply with: (a) the requirements of the Internal Revenue Code of 1986, as amended; and (b) all applicable Regulations (“Code”). In the event of any conflict between the Contract and the Code, the Code will govern in order to maintain treatment of the Contract as an annuity under the Code.

### Individual Retirement Annuity Rider

---

<b>Owner(s):</b>	<b>JOE DOE</b>
<b>Contract Number:</b>	<b>00AA930500</b>
<b>Annuitant(s):</b>	<b>JOE DOE</b>
<b>Rider Effective Date:</b>	<b>December 01, 2024</b>

---

The Contract is amended to qualify as an individual retirement annuity under: (a) section 408(b) of the Internal Revenue Code of 1986, as amended; and (b) applicable regulations; (the "IRC"). All provisions of the Contract and this rider shall be interpreted in accordance with qualification as an individual retirement annuity under IRC section 408(b).

The terms of the Contract are amended as follows:

- 1. Owner and Annuitant.** Except as otherwise permitted by the IRC: (a) the Owner of the Contract; and (b) the Annuitant; must be the same person. You and your mean the Owner/Annuitant. You must be the sole Owner of the Contract. The Owner and Annuitant cannot be changed, except as otherwise permitted under applicable federal law. You must comply with applicable IRC provisions to prevent: (a) loss of the advantages of tax deferral; and (b) tax penalties.
- 2. Conflict.** The IRC governs if there is any conflict of terms or provisions of this rider and applicable IRC sections.
- 3. Exclusive Benefit.** The Contract is established for the exclusive benefit of: (a) you; and (b) your Beneficiary.

If this rider is attached to an inherited IRA within the meaning of section 408(d)(3)(C) maintained for the benefit of a designated beneficiary of a deceased individual, the terms "you" and "your" refer to the deceased Owner/Annuitant.

- 4. Nontransferable and Nonforfeitable.** Your interest in the Contract is: (a) nontransferable; and, except as provided by law, (b) nonforfeitable. In particular, except as permitted by the IRC, the Contract may not be sold, assigned, discounted, or pledged:
  - As collateral for a loan;
  - As security for the performance of an obligation; or
  - For any other purpose;

to any person other than to us.

5. **Premiums.** All premium payments must be paid:
- a. In cash as a qualified retirement contribution for the taxable year (as permitted under IRC section 219(b));
  - b. As a rollover contribution (as permitted by IRC sections 402(c), 402(e)(6), 403(a)(4), 403(b)(8), 403(b)(10), 408(d)(3), or 456(e)(16));
  - c. As a nontaxable transfer from an individual retirement account under IRC section 408(a);
  - d. As a nontaxable transfer from another individual retirement annuity under IRC section 408(b);
  - e. As a contribution made in accordance with the terms of a Simplified Employee Pension as described in IRC section 408(k); or
  - f. As an amount contributed to an inherited individual retirement account or individual retirement annuity within the meaning of IRC section 408(d)(3)(C)(ii).

The total of all premium paid as your qualified retirement contribution for any taxable year may not exceed: (a) the amount permitted under IRC sections 219(b) and 408(b); or (b) such other amount provided by the IRC. If you are age 50 or older before the close of the taxable year, the annual qualified retirement contribution limit is increased by the catch-up contribution amount permitted under IRC section 219(b)(5)(B).

You may also make premium payments as additional contributions specifically authorized by statute, such as repayments of qualified reservist distributions, or repayments of certain plan distributions made on account of a federally declared disaster.

If this rider is attached to an inherited IRA within the meaning of section 408(d)(3)(C), no contributions will be accepted.

No premium subsequent to the initial premium, if permitted, will be accepted unless it is equal to at least \$50.

**Note: Single Premium Annuities.** If this rider is attached to a single premium annuity, premiums will not be accepted beyond: (a) the basic annuity premium; and (b) any additional period following the Contract Effective Date during which premium is allowed (see **Contract Data**). Any and all premium is subject to the limits and exclusions noted above.

6. **Annuity Benefits.** All annuity payment options under the Contract must meet the requirements of IRC sections 401(a)(9) and 408(b)(3).
7. **Required Distributions Generally.** Your entire interest in the Contract shall be distributed in accordance with the requirements of IRC sections 408(a)(6) and 408(b)(3) and the regulations thereunder, the provisions of which are herein incorporated by reference. The provisions of this rider reflecting these requirements override any payment option, surrender option, or other distribution method that is inconsistent with such requirements.

There will be no surrender fee on any minimum distribution required under IRC sections 401(a)(9) and 408(b)(3) with respect to the Contract.

8. **Required Beginning Date.** The term "Required Beginning Date" as used in this rider means April 1 of the calendar year following the calendar year in which you attain age 73, or such later date as provided by law.

9. **Required Distributions During Owner's Life.** Unless otherwise permitted under the IRC, your entire interest in the Contract shall be distributed, or commence to be distributed, no later than the Required Beginning Date.

If this rider is attached to an inherited IRA within the meaning of section 408(d)(3)(C), the information below describing required distributions during the owner's life does not apply.

- a. Deferred Annuity.** If this rider is attached to a deferred annuity, your entire interest in the Contract shall be distributed, commencing no later than the Required Beginning Date, over your life or the lives of you and your Beneficiary (as defined in IRC section 401(a)(9)). Distributions must satisfy the requirements of IRC section 408(a)(6).

The amount to be distributed each year, beginning with the calendar year in which you attain age 73 and continuing through the year of your death, shall not be less than the quotient obtained by dividing:

1. The annuity fund value as of the end of the preceding year; by
2. The distribution period in the Uniform Lifetime Table in Q&A-2 of section 1.401(a)(9)-9 of the Income Tax Regulations;

using your age as of your birthday in the year the minimum distribution is required.

However, if your sole Beneficiary is your surviving spouse and such spouse is more than 10 years younger than you, then the distribution period is determined:

1. Under the Joint and Last Survivor Table in Q&A-3 of section 1.401(a)(9)-9;
2. Using the ages as of your birthday and your spouse's birthday in the year the minimum distribution is required.

- b. Immediate Annuity.** If this rider is attached to an immediate annuity making distributions on an irrevocable basis, your entire interest in the Contract shall be distributed, commencing no later than the Required Beginning Date, over:

1. Your life or the lives of you and your Beneficiary (as defined in IRC section 401(a)(9)); or
2. A certain period not extending beyond:
  - a. Your life expectancy; or
  - b. The joint and last survivor life expectancy of you and your Beneficiary.

If your entire interest is to be paid over a period greater than one year, the amount to be paid by December 31 of each year (including the year in which the Required Beginning Date occurs) will be made in accordance with the requirements of IRC section 401(a)(9), including the incidental death benefit requirements of IRC section 401(a)(9)(G).

Payments must be made in periodic payments at intervals of no longer than one year and must either be non-increasing or may increase only as provided in Q&As -1 and -4 of section 1.401(a)(9)-6 of the Income Tax Regulations. In addition, any distribution must satisfy the incidental benefit requirements specified in Q&A-2 of section 1.401(a)(9)-6.

**10. Required Distribution Upon Owner's Death.** Payment of death benefits under the Contract will be in accordance with IRC section 401(a)(9), as described below.

- a. **Death On or After Required Beginning Date.** If this rider is attached to an immediate annuity making distributions on an irrevocable basis, and you die after distribution of your interest in the Contract has begun, the remaining portion of your interest in the Contract (if any) will continue to be distributed under the method of payment being used as of the date of your death, not to exceed the end of the tenth calendar year following your death.

If this rider is attached to a deferred annuity, and you die after your Required Beginning Date, the remaining portion of your interest in the Contract (if any) will be distributed as follows:

1. **Non-spouse Beneficiary.** If the Beneficiary is someone other than your surviving spouse, the remaining portion of your interest in the Contract will be distributed, no later than the end of the tenth calendar year following your death.
2. **Surviving Spouse Beneficiary.** If the sole Beneficiary is your surviving spouse, the remaining interest in the Contract may be distributed as follows:
  - a. Your spouse's life expectancy; or
  - b. A period no longer than the end of the tenth calendar year following your death; or
  - c. In a lump sum.

Any interest remaining after your spouse's death will be distributed no later than the end of the tenth calendar anniversary following your spouse's death:

The amount to be distributed each year if you died on or after the Required Beginning Date, beginning with the calendar year following the calendar year of your death, is the quotient obtained by dividing the value of the IRA as of December 31 of the preceding year by the applicable remaining life expectancy specified above.

- b. **Death Before Required Beginning Date.** If you die before distribution of your interest in the Contract has begun, your entire interest will be distributed as follows:

1. **No Beneficiary or Non-Spouse Beneficiary.** If the Beneficiary is someone other than your surviving spouse, your entire interest in the Contract will be distributed no later than the end of the tenth calendar year following your death.

If this rider is attached to an inherited IRA within the meaning of IRC section 408(d)(3)(C), established for a non-spouse Beneficiary by a direct trustee-to-trustee transfer from your retirement plan under section 402(c)(11), the distributions to the Beneficiary will be paid as noted above, if the transfer is made no later than December 31 of the calendar year immediately following the calendar year in which you died.

**2. Surviving Spouse Beneficiary.** If your Beneficiary is your surviving spouse, the Beneficiary may elect to receive the entire interest over:

- a. Your spouse's life; or
- b. A period not extending beyond your spouse's life expectancy;

commencing at any date on or before the later of:

- a. December 31 of the calendar year immediately following the calendar year in which you died; and
- b. December 31 of the calendar year in which you would have attained age 73.

Such election by your surviving spouse must be: (1) irrevocable; and (2) made no later than the earlier of:

- a. December 31 of the calendar year containing the tenth anniversary of your death; and
- b. The date distributions are required to begin pursuant to IRC section 401(a)(9).

If your surviving spouse dies after distributions begin, any remaining interest will be distributed no later than the end of the tenth calendar year following your spouse's death.

Your surviving spouse may elect to receive distributions under the ten-year rule, under which your entire interest in the Contract will be paid by December 31 of the calendar year containing the tenth anniversary of your death.

If your surviving spouse dies before distributions begin, the limitations with respect to required distribution upon the Owner's death (without regard to the "Surviving Spouse Beneficiary" section) will be applied as if your surviving spouse were the Owner.

Life expectancy with respect to required distribution upon the Owner's death is determined using the Single Life Table in Q&A-1 of section 1.401(a)(9)-9 of the Income Tax Regulations. If distributions are being made to a surviving spouse as the sole Beneficiary, such spouse's remaining life expectancy is the number in the Single Life Table corresponding to such spouse's age. In all other cases, remaining life expectancy for a year is the number in the Single Life Table corresponding to the Beneficiary's age or your age in the year specified above and reduced by 1 for each subsequent year.

Distributions to you of your interest in the Contract are considered to have begun:

- a. If payments are made on account of your reaching your Required Beginning Date; or
- b. If prior to the Required Beginning Date, payments irrevocably commence to you over a period permitted and in an annuity form acceptable under IRC section 401(a)(9).

If you die after you elect to receive distributions and before you receive any payments under the Contract, the payments will be modified as necessary to comply with the requirements of IRC sections 401(a)(9) and 408(b)(3).

If the sole Beneficiary is your surviving spouse, the spouse may elect to treat the IRA as his or her own IRA. This election will be deemed to have been made if such surviving spouse makes a contribution to the IRA or fails to take required distributions as a Beneficiary.

11. **Annual Calendar Year Reports.** We will furnish annual calendar year reports concerning the status of the Contract.
12. **Amendment of This Rider.** The provisions of this rider are intended to comply with the requirements of the IRC for section 408(b) individual retirement annuity contracts. We reserve the right to amend this rider at any time when necessary to ensure continued compliance of the Contract with the requirements applicable to an individual retirement annuity under IRC section 408(b) and any successor provision.

PART OF CONTRACT - This rider is part of the Contract to which it is attached. All Contract terms will apply to this rider unless they: (a) have been changed by this rider; or (b) conflict with this rider.

**The guaranteed minimum death benefit will terminate upon assignment or a change in ownership of the contract unless the new assignee or owner meets the qualifications specified in the Termination provision of the guaranteed minimum death benefit.**

The Contract is amended as follows:

For purposes of this Rider, “you/your” refers to the Owner of the Contract, or to the oldest Joint Owner, or to the Annuitant or oldest Joint Annuitant if the Owner is a non-natural person. “You” also refers to the surviving spouse after continuation if continued under this Rider’s Spousal Continuation provision.

#### **1. Rider Definitions and Provisions.**

##### **Benefit Anniversary.**

The anniversary of the Rider Effective Date occurring each year the Rider remains in force.

##### **Death Benefit Base.**

The Death Benefit Base will be used in calculating the amount of death benefit available. It will be reset each Benefit Anniversary based on either the Guaranteed Enhancement Value or the Performance Enhancement Value, whichever is greater, but will not exceed the Death Benefit Max. The Death Benefit Base will be recalculated as of the date of death and will reflect any partial year credit to the Guaranteed Enhancement Value and may include a partial year credit to the Performance Enhancement Value. **The Death Benefit Base cannot be withdrawn as a lump sum or applied to any annuity option available under the contract.**

**Last Increase Date.**

The Guaranteed Enhancement Value and Performance Enhancement Value will be increased until either the Minimum Growth Period or the Benefit Anniversary following the date you attain the Max Growth age, whichever is later.

**Guaranteed Enhancement Value.**

The Guaranteed Enhancement Value initially equals the Premium paid for the Contract and will increase daily at an annual effective rate equal to the Rollup Rate. This value will be increased until the Last Increase Date.

**Performance Enhancement Value.**

The Performance Enhancement Value initially equals the Premium paid for the Contract and will be increased by an amount equal to the total amount of interest credited to the Contract in the preceding Contract Year multiplied by the Growth Factor. The total amount of interest credited consists of any interest earned in the Index Interest Accounts and/or the Fixed Interest Account, if applicable. The Performance Enhancement Value will be increased on each Benefit Anniversary until the Last Increase Date.

**Death Benefit Max.**

The Death Benefit Max determines the maximum value that the Death Benefit Base may be reset to. It equals the greater of either the Cash Surrender Value Limit or the Premium Limit. The Death Benefit Base will never exceed the Death Benefit Max.

**Cash Surrender Value Limit.**

Equals the surrender value of the annuity fund excluding any Market Value Adjustment, multiplied by the Cash Surrender Value Limit Factor.

**Premium Limit.**

Equals the Premium paid for the Contract accumulated daily at an annual effective rate equal to the Premium Limit Annual Growth Rate. The Premium Limit may not exceed the Premium Max Limit.

**Premium Max Limit.**

Equals the Premium paid for the Contract multiplied by the Premium Max Limit Factor.

2. **Death Benefit Amount.** Upon death of the first Owner, or the Annuitant if the Owner is a non-natural person, the beneficiaries will receive the greater of either the Death Benefit Base or the death benefit provided by the Contract.
3. **Spousal Continuation.** While the Rider is in effect, if an Owner, or the Annuitant if the Owner is a non-natural person, dies and the sole primary Beneficiary is the Owner's spouse, the surviving spouse may choose to continue the Contract in their own name and exercise all the Owner's rights under the Contract, subject to our administrative rules. The surviving spouse has two continuation options available under this Rider:
  - Option 1.** The surviving spouse may elect to continue the Contract and have this Rider terminate. Upon this election, the value of the annuity fund will be adjusted upward to equal the Death Benefit Amount, if greater, and this Rider will terminate. Any excess of the Death Benefit Amount over the value of the annuity fund will be allocated to the Fixed Interest Account. The new death benefit will equal the death benefit provided by the Contract.
  - Option 2.** The surviving spouse may elect to continue the Contract and continue this Rider. If this option is elected, the share of the Death Benefit Amount will not be distributed. Instead, the Contract will be continued at the current value of the annuity fund on the date we determine the Death Benefit Amount. This Rider will remain active and all values will continue to be calculated based on the age of the original Owner. The Death Benefit Amount will be payable upon death of the surviving spouse. No further spousal continuations of this rider will be allowed.

- 4. Withdrawals.** The Death Benefit Base, Guaranteed Enhancement Value, Performance Enhancement Value, Premium Limit and Premium Max Limit will be reduced for all withdrawals. If your Contract is subject to Required Minimum Distributions, as described in the Required Minimum Distributions provision of your Contract, withdrawals up to the Required Minimum Distribution Amount will reduce these values by the amount of the withdrawal. If your Contract is not subject to Required Minimum Distributions and/or you withdraw an amount greater than the Required Minimum Distribution Amount (if any), such withdrawals will reduce these values by the same proportion that the withdrawal reduces the value of the annuity fund.

**Required Minimum Distribution Amount.** The Required Minimum Distribution Amount is calculated pursuant to the requirements of Section 401(a)(9) of the Internal Revenue Code of 1986, as amended (the "Code"). The Required Minimum Distribution Amount relates solely to the Contract and without regard to required minimum distributions for any other funding vehicle.

- 5. Rider Charge.** Deducted from the value of the annuity fund on each Benefit Anniversary. The Rider Charge is equal to the Rider Charge Rate multiplied by the Death Benefit Base immediately before the Benefit Anniversary. The Rider Charge will be deducted proportionately from each Index Interest Account and Fixed Interest Account based on the percentage weight to the total value of the annuity fund. The Rider Charge Rate is determined by your age as of the Rider Effective Date and will not change. The deduction of the Rider Charge will not reduce the Death Benefit Base.
- 6. Rider Termination.** This Rider cannot be reinstated after it has terminated. Once the termination is processed, the Rider Charge will no longer apply. This Rider automatically terminates and shall no longer be a part of the Contract on the occurrence of the earliest of:
- a. The date the Contract is surrendered. \*
  - b. The date the Contract is Annuitized. \*
  - c. The date there are insufficient funds to deduct the Rider Charge.
  - d. The change in ownership or assignment\* of the contract unless;
    - i. The new Owner or assignee assumes full Ownership of the Contract and is essentially the same person (e.g., and individual Ownership change to a personal revocable trust, a change to a court appointed guardian representing the Owner during the Owners lifetime, etc.).
    - ii. The change of Owner is a Spousal Continuation as described in Spousal Continuation Option 2 above.
    - iii. The assignment is for exchange under section 1035 of the code (i.e., this Rider may continue during the temporary assignment period and not terminate until the Contract is surrendered).
  - e. The date the contract is terminated.
  - f. The date the Death Benefit Amount is paid out.

\*A pro-rata portion of the Rider Charge will be assessed based on the portion of the Contract Year that has elapsed at the time of the Rider Termination processing.

- 7. Annual Statement.** At least once each year, we will send you a statement of your Contract activity and values, including the Death Benefit Amount under this Rider.

PART OF CONTRACT -- This Rider is part of the Contract to which it is attached. All Contract terms will apply to this Rider unless they: (a) have been changed by this rider; or (b) conflict with this Rider.

The Contract is amended as follows:

**Market Value Adjustment:** An adjustment to an amount surrendered or used to provide annuity benefit payments or death benefits commencing during the Market Value Adjustment Period.

**Market Value Adjustment Period:** The period beginning on the Rider Effective Date and ending on the tenth (10th) anniversary of the rider effective date.

2. The **Benefit Provisions** section of the Contract is amended to add the following **Market Value Adjustment** section:

#### Market Value Adjustment

##### A. Market Value Adjustment.

Amounts surrendered or used to provide annuity benefit payments or death benefits commencing during the Market Value Adjustment Period are subject to a Market Value Adjustment. The Market Value Adjustment is determined as follows:

(A - B - C) times D; where:

A = The amount of the value of the annuity fund surrendered or used to provide annuity benefit payments or death benefits.

B = The amount of the value of the annuity fund surrendered or used to provide annuity benefit payments or death benefits that is not subject to a surrender charge.

C = The applicable surrender charge.

D = The Market Value Adjustment Factor.

The Market Value Adjustment Factor is determined as follows:

$$\left\{ \left( \frac{1+X}{1+Y} \right)^{N/12} \right\} - 1; \text{ where:}$$

X = The index rate as of the beginning of the Market Value Adjustment Period.

Y = The index rate as of the date we receive the request for surrender or annuity benefit payments or death benefits.

The index rate as of any given date is based on:

- a. The four-week average of the Market Value Adjustment Index shown above; ending on
- b. The third Friday of the preceding calendar month.

When "X" is greater than "Y", the Market Value Adjustment: (1) is positive; and (2) increases the surrender value or the annuity benefit payment or death benefit.

When "X" is less than "Y", the Market Value Adjustment: (1) is negative; and (2) decreases the surrender value or the annuity benefit payment or death benefit.

The Market Value Adjustment will not increase or decrease your surrender value, annuity benefit payment or death benefit by more than:

- a. The value of the annuity fund, reduced by surrender charges (see **Contract Data**); minus
- b. The minimum fund value (see **Contract Data**).

#### **B. Change of Index.**

If the Market Value Adjustment Index is discontinued: (1) we may change the method for determining the index rates, subject to approval by the IIPRC; and (2) we will provide you with Written Notice of the change.

#### **C. Waiver of Market Value Adjustment.**

During the Market Value Adjustment Period, we will not apply a Market Value Adjustment for any Contract benefits for which surrender charges are waived during the surrender period.

3. The value of the annuity fund, the surrender value and the prospective fund value are subject to adjustment under the terms of the **Market Value Adjustment** section of the Contract.
4. The **Annuity Benefit Amount** provision in the **Annuity Benefits** section is amended to provide:  
The value of the annuity fund, the surrender value and the prospective fund value used to determine the amount of the annuity benefit are subject to adjustment under the terms of the **Market Value Adjustment** section of the Contract.
5. The **Total Surrender** and the **Partial Surrender** provisions in the **Surrender Benefits** section are amended to provide:  
The amount of any total surrender or partial surrender under the Contract is subject to adjustment under the terms of the **Market Value Adjustment** section of the Contract.   - a. An indication of whether or not the surrender value is prior to or after the application of any market value adjustment formula; and
