Protect Your Loved Ones

Life insurance helps take care of your family if something happens to you. It can help your loved ones get through a difficult time and pay for important things, like a home or college plans.

Accidental Death and Dismemberment (AD&D) insurance helps protect your family’s finances if an accident causes death or a severe physical loss. It pays a benefit in addition to any life insurance you have. That can help pay for a funeral or ongoing special care.

Protect Your Paycheck

Disability insurance can replace part of your paycheck if you can’t work because of an illness, injury or pregnancy. The benefit payments can help with bills that continue even when you can’t work — like your rent or mortgage.

Short term disability insurance can help pay the bills if you become disabled and can’t work for a short period of time.

Long term disability insurance helps replace part of your paycheck if you experience a disability that lasts for months or even years.
