

Your Vision Matters

Group Vision Insurance

What's a good way to look after your health?

Taking care of your eye health. Group Vision insurance from Standard Insurance Company (The Standard[‡]) can make it easier to take care of your eyes — and your overall health.

During regular exams, an eye doctor can detect both vision and other health conditions:

- Vision correction needs
- Changes in the eye and the early stages of eye diseases, like glaucoma, cataracts, macular degeneration and diabetic retinopathy
- Serious medical problems, like high blood pressure, diabetes, some cancers, autoimmune diseases, thyroid issues and high cholesterol

Why Enroll in Vision Insurance?

Choice — Our Vision plans let you visit any provider you choose.

Children — Kids need eye exams because they don't know what good vision should look like yet. Scheduling them regular eye exams can uncover vision problems that may be hurting their schoolwork.

Costs — Eye exams are preventive care. Plans usually cover most or all of the exam bill. Plus, an eye exam's potential to catch illnesses at an early stage may reduce your medical treatment costs.

Look after your eyes — and the rest of you.

Contact your human resources representative to learn how to apply for Vision insurance.

Policies with The Standard have exclusions, limitations, reduction of benefits and terms under which a policy may be continued in force or terminated. Please contact The Standard for additional information, including costs and complete details of coverage.
