

# The Standard: Built on a Foundation of Financial Strength

These last few years have shown the importance of financial strength, organizational stability and expertise.

The Standard was founded in 1906 and our fiscally prudent management approach has helped us navigate through periods of significant volatility to ensure we can keep our financial commitments and grow profitably. This approach is built on the strength of our disciplined financial practices, sound investment strategies, unique mix of high-performing businesses, strong products and services and deep expertise.

Our company remains focused on meeting the challenges ahead and taking advantage of opportunities as they arise, all while providing the best possible experience for our customers.

## Financial Strength Ratings

In the July 2022 issue of *Best’s Review*, A.M. Best Company recognized Standard Insurance Company for maintaining a financial strength rating of “A” or higher each year since 1928, the first year of A.M. Best’s ratings. The Standard was honored to be among one of only eight life and health insurers to achieve an “A” rating or higher for each of the past 94 years.
