

The Standard: Built on a Foundation of Financial Strength

The Standard was founded in 1906 and our fiscally prudent management approach has helped us navigate through periods of significant volatility to ensure we can keep our financial commitments and grow profitably. This approach is built on the strength of our disciplined financial practices, sound investment strategies, unique mix of high-performing businesses, strong products and services and deep expertise. Recent M&A activity is helping The Standard grow significantly. We are gaining market share in group insurance and increasing retirement assets under administration through organic growth in our businesses and recent M&A activity. Our benefits distribution channel is expanding through a new product distribution partnership, and we continue to add new products and employees to meet the needs of our customers.

Our company remains focused on meeting the challenges ahead and taking advantage of opportunities as they arise, all while providing the best possible experience for our customers.

Bond Portfolio

Our bond portfolio is strong. Our strategy is to maintain a diversified portfolio of high-quality, fixed-maturity securities to keep us well protected should any industries experience difficulties. As of Dec. 31, 2023, we have:

- A \$12.99 billion portfolio
- An average portfolio credit quality rating of “A” as measured by Standard & Poor’s

Commercial Mortgage Loan Portfolio

Our commercial mortgage loans have consistently provided a superior balance of risk and return. We offer small commercial mortgage loans to borrowers who want a fixed rate over time, and we rigorously underwrite every commercial mortgage loan we make. The quality of our commercial mortgage loan portfolio is excellent as demonstrated by delinquency rates better than industry rates for an extended period of time. As of Dec. 31, 2023, we have:

- A \$10.46 billion portfolio (on approximately 5,800 loans)
- An average loan size of approximately \$1.8 million
