STATEMENT AS OF JUNE 30, 2013 OF THE STANDARD LIFE INSURANCE COMPANY OF NEW YORK  
**NOTES TO FINANCIAL STATEMENTS**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The Standard Life Insurance Company of New York (the “Company”) commenced business in October 2000. The Company currently markets group life, accidental death and dismemberment, dental, vision, Lasik, and disability income insurance products in New York through brokers and its own representatives. Group accident and health insurance was the first product licensed for sale in New York, followed by group life insurance in 2002, dental insurance in 2003 and vision and Lasik coverage in 2009 to complement the Company’s insurance products to employer groups. The Company began selling individual disability insurance in April 2013.

The accompanying statutory basis financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the New York State Department of Financial Services (“Department”). Only statutory accounting practices so prescribed or permitted by the Department can be used in determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under New York Insurance Law.

The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures manual, (“NAIC SAP”), including the Statements of Statutory Accounting Principles (“SSAP”) as updated by the NAIC, has been adopted with some exceptions by the Department.

A reconciliation of the Company’s net income and surplus between the NAIC Statutory Accounting Principles (“NAIC SAP”) and practices prescribed and permitted by the Department in accordance with Appendix A-205 of the Accounting Manual is shown below:

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

On January 1, 2013, the Company adopted SSAP No. 92, *Accounting for Postretirement Benefits Other than Pensions* (“SSAP No. 92”). SSAP No. 92 applies to all postretirement benefits expected to be provided by an employer to current and former employees (including retirees, disabled employees, and other former employees who are expected to receive postretirement benefits pursuant to the terms of an employer’s undertaking to provide those benefits). SSAP No. 92 changes current statutory accounting standards by recognizing an asset or liability for the funded status when comparing the accumulated benefit obligation to the plan assets at fair value and by including the prior service cost for non-vested employees not previously recognized in the net postretirement benefit cost. The transition options to recognize the effect of adopting the new standard involves either recognizing the surplus impact immediately with no deferral or defer the surplus impact over a period not exceeding ten years, in accordance with the transition guidelines. There was no significant change to the Company upon the adoption of SSAP No. 92.

On January 1, 2013, the Company adopted SSAP No. 102, *Accounting for Pensions, A Replacement of SSAP No. 89* (“SSAP No. 102”). SSAP No. 102 changes current statutory accounting standards by recognizing an asset or liability for the funded status when comparing the projected benefit obligation to the plan assets at fair value and by including non-vested employees in the service cost calculation. There was no significant change to the Company upon the adoption of SSAP No. 102.

**NOTES TO FINANCIAL STATEMENTS**

On January 1, 2013, the Company adopted SSAP No. 103, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (“SSAP No. 103”). Statutory accounting principles are established for transfers and servicing of financial assets, including asset securitizations and securitizations of policy acquisition costs, extinguishments of liabilities, repurchase agreements, repurchase financing and reverse repurchase agreements that are consistent with the Statutory Accounting Principles Statement of Concepts and Statutory Hierarchy. It is necessary to determine whether a transferor has surrendered control over transferred financial assets. The determination must consider the transferor’s continuing involvement in the transferred financial assets and requires the use of judgment that must consider all arrangements or agreements made contemporaneously with, or in contemplation of, the transfer, even if they were not entered into at the time of the transfer. SSAP No. 103 documents the conditions that must be met for a transfer of an entire financial asset, a group of entire financial assets, or a participating interest in an entire financial asset in which the transferor surrenders control over those financial assets to be accounted for as a sale. There was no significant change to the Company upon the adoption of SSAP No. 103.

On January 1, 2013, the Company adopted the revisions to SSAP No. 36, *Troubled Debt Restructuring* (“SSAP No. 36”). The definition of a troubled debt restructuring (“TDR”) requires the creditor to conclude that the restructuring constitutes a concession and that the debtor is experiencing financial difficulties. The creditor cannot use the borrower’s effective interest rate test in its evaluation of whether a restructuring is a TDR. There was no significant change to the Company upon adoption of the revisions to SSAP No. 36.

1. The Company does not have any assets or liabilities reported at fair value on a recurring basis.
2. The Company does not have any assets or liabilities categorized within Level 3 of the fair value hierarchy on a recurring basis.
3. Commercial mortgage loans measured for impairment are valued using Level 3 inputs with the inputs evaluated and reviewed for reasonableness by management on a quarterly basis. The commercial mortgage loan measurements include valuation of the market value of the asset using general underwriting procedures and appraisals. These amounts may be adjusted in a subsequent period as additional market information is obtained.
4. Not applicable
5. The Company does not have any derivative assets or liabilities.

<b>Type of Financial Instrument (In thousands)</b>	<b>Aggregate Fair Value</b>	<b>Admitted Assets</b>	<b>(Level 1)</b>	<b>(Level 2)</b>	<b>(Level 3)</b>	<b>Not Practicable (Carrying Value)</b>
Bonds	\$ 126,463	\$ 121,043	-	\$ 126,352	\$ 111	-
Mortgage loans on real estate	126,995	117,212	-	-	126,995	-

For disclosure purposes, the fair values of commercial mortgage loans were estimated using an option-adjusted discounted cash flow valuation. The valuation includes both observable market inputs and estimated model parameters.

Significant observable inputs to the valuation include:

- Indicative quarter-end pricing for a package of loans similar to those originated by the Company near quarter-end.
- U.S. Government treasury yields.
- Indicative yields from industrial bond issues.
- The contractual terms of nearly every mortgage subject to valuation.

Significant estimated parameters include:

- A liquidity premium that is estimated from historical loans sales and is applied over and above base yields.
- Adjustments in interest rate spread based on an aggregate portfolio loan-to-value ratio, estimated from historical differential yields with respect to loan-to-value ratios.
- Projected prepayment activity.

Fixed maturity securities are comprised of the following classes:

- U.S. government agency bonds.
- Industrial and miscellaneous (unaffiliated) bonds.

The fixed maturity securities are diversified across industries, issuers, and maturities. They are placed into three levels depending on the valuation technique used to determine the fair value of the securities. The Company used an independent pricing service to assist management in determining the fair value of these assets. The pricing service incorporates a variety of information observable in the market in its valuation techniques, including:

- Reported trading prices
- Benchmark yields
- Broker-dealer quotes
- Benchmark securities
- Bids and offers
- Credit ratings
- Relative credit information
- Other reference data

The pricing service also takes into account perceived market movements and sector news, as well as a bond's terms and conditions, including any features specific to that issue that may influence risk, and thus marketability. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary. The Company generally obtains one value from its primary external pricing service. On a case-by-case basis, the Company may obtain further quotes or prices from additional parties as needed.

The pricing service provides quoted market prices when available. Quoted prices are not always available due to bond market inactivity. The pricing service obtains a broker quote when sufficient information, such as security structure or other market information, is not available to produce a valuation. Valuations and quotes obtained from third party commercial pricing services are non-binding and do not represent quotes on which one may execute the disposition of the assets.

STATEMENT AS OF JUNE 30, 2013 OF THE STANDARD LIFE INSURANCE COMPANY OF NEW YORK  
**NOTES TO FINANCIAL STATEMENTS**

---

The Company performs control procedures over the external valuations at least quarterly through a combination of procedures that include the evaluation of methodologies used by the pricing service, analytical reviews and performance analysis of the prices against statistics and trends, back testing of sales activity and maintenance of a securities watch list. As necessary, the Company compares prices received from the pricing service to prices independently estimated by the Company utilizing discounted cash flow models through performing independent valuations of inputs and assumptions similar to those used by the pricing service in order to ensure prices represent a reasonable estimate of fair value. Although the Company does identify differences from time to time as a result of these validation procedures, the Company did not make any significant adjustments as of June 30, 2013.
