ANNUAL STATEMENT FOR THE YEAR 2014 OF THE STANDARD LIFE INSURANCE COMPANY OF NEW YORK
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The Standard Life Insurance Company of New York (“the Company”) is a stock life insurance company domiciled in the State of New York and licensed to do business in New York. The Company markets group life, dental and accident and health (“A&H”) income insurance products through brokers and its own representatives. In 2013, the Company began marketing individual disability insurance.

The accompanying statutory basis financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the New York State Department of Financial Services (“the Department”). Only statutory accounting practices so prescribed or permitted by the State of New York can be used in determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under New York Insurance Law.

The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures Manual, version effective March 2014 (“Accounting Manual”) has been adopted by the Department as a component of prescribed or permitted accounting practices under Regulation 172, Financial Statement Filings and Accounting Practices and Procedures, Part 83 of Title 11 of the Official Compilation of Codes, Rules and Regulations of the State of New York dated December 27, 2000, and revised October 30, 2014. The Accounting Manual contains Statements of Statutory Accounting Principles (“SSAP”). Section 83.4 of Regulation 172 (“the Insurance Law”) details those SSAPs or sections of the SSAPs that conflict with New York Insurance Law. The Company is affected by some, but not all, of the conflicts detailed in Section 83.4. Those that could have an effect on the Company include the following:

- 1) SSAP No. 6, *Uncollected Premium Balances, Bills Receivable for Premiums, and Amounts Due From Agents and Brokers*, paragraph 9(a) is adopted except that Section 1301(a)(11) of the Insurance Law provides that overdue premiums due from the United States government or any of its instrumentalities shall be admitted assets.
- 2) SSAP No. 16R, *Electronic Data Processing Equipment and Accounting for Software*, is not adopted. Section 1301(a)(18) of the Insurance Law shall apply. Electronic data processing equipment constituting a data processing, record keeping, or accounting system shall be an admitted asset if the cost of such system exceeds \$50,000. The cost may be amortized over a period not to exceed ten years. Non-operating system software shall be non-admitted and depreciated over the lesser of its useful life or five years.
- 3) SSAP No. 20, *Non-Admitted Assets*, paragraph 4(c) is adopted except that Section 1411(f)(1) and (2) of the Insurance Law prohibits loans to officers or directors.
- 4) SSAP No. 25, *Accounting for Disclosures about Transactions with Affiliates and Other Related Parties*, paragraph 5 is not adopted. Section 1501(c) of the Insurance Law provides that the superintendent may determine upon application that any person does not, or will not upon the taking of some proposed action, control another person. In addition, paragraph 7 is adopted except that Insurance Law prohibits loans to officers or directors.
- 5) SSAP No. 29, *Prepaid Expenses*, is not adopted. Sections 1301(a)(9) and 1302(a)(2) of the Insurance Law shall apply. The unaccrued portion of real estate property taxes paid prior to the due date shall be an admitted asset.
- 6) SSAP No. 34, *Investment Income Due and Accrued*, paragraphs 5 and 6 are not adopted. Sections 1301(a)(4), 1301(a)(5), 1301(a)(6), and 1301(a)(7) of the Insurance Law shall apply.
- 7) SSAP No. 37, *Mortgage Loans*, paragraph 14 is not adopted. Section 1301(a)(7) of the Insurance Law shall apply. Interest due or accrued on any real estate mortgage loan which is an admitted asset, in an amount not exceeding the excess of the value of the property (less delinquent taxes) over the unpaid principal amount of the loan unless such interest or taxes due are in default more than 18 months, is an admitted asset.
- 8) SSAP No. 40, *Real Estate Investments*, paragraph 8 is not adopted. Depreciation on real estate investments owned by life insurers shall be computed at a rate no greater than two and one-half percent per annum, in accordance with Section 1405(b)(1)(C) of the Insurance Law.
- 9) SSAP No. 88, *Investments in Subsidiary, Controlled, and Affiliated Entities*, paragraph 6 is not adopted. Section 1501(c) of the Insurance Law provides that the superintendent may determine upon application that any person does not, or will not upon the taking of some proposed action, control another person.
- 10) SSAP No. 61, *Life, Deposit-Type and Accident and Health Reinsurance*, paragraph 53 is not adopted. Under Section 1302(a)(1) of the Insurance Law, all goodwill resulting from assumption reinsurance transactions shall be non-admitted.
- 11) SSAP No. 101, *Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10*, paragraph 9 is not adopted. A refund due from the Treasury should be collectible within a brief period after the statement date, in order to be considered an admitted asset. A balance due as a result of participation in a consolidated tax return should be paid over promptly by the parent.

The Superintendent of Financial Services of the State of New York has the right to permit other specific accounting practices that deviate from prescribed practices. The Company has no specific permitted accounting practices.

B. Use of Estimates

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Life premiums are recognized as income over the premium paying period of the related policies. A&H premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

For all investments, impairments are recorded when it is determined that the decline in fair value of an investment below its amortized cost basis is other than temporary. The Company reflects other-than-temporary impairments in net realized capital losses and permanently adjusts the book value of the investment to reflect the impairment. Factors considered in evaluating whether a decline in value is other than temporary include: (i) duration and the extent to which the fair value has been below amortized cost, (ii) the financial conditions and near-term prospects of the issuer, and (iii) the Company's intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in market value. In addition, for securities expected to be sold, an other-than-temporary impairment is recorded if the Company does not expect the realizable market value of a security to recover to amortized cost prior to the expected date of sale. Once an impairment has been recorded, the Company continues to review the other-than-temporary impaired securities for further potential impairment. The Company records temporary impairments and the allowance for commercial mortgage loan losses as unrealized capital losses.

The liability for experience rated refunds is estimated at the end of each reporting period for retrospectively rated contracts based on the loss experience of the insured group during the term of the policy (including loss development after the term of the policy) and the stipulated formula set forth in the policy. The change in the liability for experience rated refunds is recorded as an adjustment to premium income for the reported period.

The Company uses the following additional accounting policies:

- 1) Short-term investments are stated at amortized cost.
- 2) Bonds not backed by other loans and structured securities are stated at amortized cost using the scientific (constant) yield to worst method, which is determined by the call or maturity date which produces the lowest asset value.
- 3) The Company owns no common stocks.
- 4) The Company owns no preferred stocks.
- 5) Mortgage loans are stated at the unpaid principal balances adjusted for unamortized discounts, premiums, and allowance for losses.
- 6) Asset backed securities are stated at amortized cost using the constant yield method with capitalized prepayments.
- 7) The Company does not own investments in any subsidiaries, controlled and affiliated companies.
- 8) The Company has no investments in any joint ventures, partnerships or limited liability companies.
- 9) The Company holds no derivatives.
- 10) Should the Company determine the need for premium deficiency reserves, investment income would be anticipated as a factor in the premium deficiency calculation, in accordance with SSAP No. 54, *Individual and Group Accident and Health Contracts*.

ANNUAL STATEMENT FOR THE YEAR 2014 OF THE STANDARD LIFE INSURANCE COMPANY OF NEW YORK
NOTES TO FINANCIAL STATEMENTS

- 11) Claim liabilities for accident and health policies are established using a combination of industry morbidity tables and company adjusted formulas. The present value of future benefits is calculated for each claim reported and approved. Interest rates are reviewed annually as determined by the Department and NAIC model guidelines. Incurred but not reported reserves are established at the policy level and formulas are reviewed as appropriate to ensure that reserve run-outs demonstrate sufficient adequacy. Claim adjustment expenses for accident and health policies are developed using estimates of expected claim duration and administration costs based on company experience. Future costs are adjusted for inflation.
- 12) The Company has not modified its capitalization policy from the prior period.
- 13) The Company does not have pharmaceutical rebate receivables.

The Company had no material claims relating to extra contractual obligations or bad faith losses from lawsuits as of December 31, 2014.

E. Joint and Several Liabilities

The Company did not have any joint and several liabilities as of December 31, 2014.

F. All Other Contingencies

There were two legal actions pending as of December 31, 2014. In the normal course of business, the Company is involved in various legal actions and other state and Federal proceedings. In some instances, lawsuits include claims for punitive damages and similar types of relief in unspecified or substantial amounts, in addition to amounts for alleged contractual liability or other compensatory damages. In the opinion of management, the ultimate liability, if any, arising from these actions or proceedings is not expected to have a material adverse effect on the Company's business, financial position, results of operations, or cash flows.

In addition to product-specific reinsurance arrangements, the Company maintains reinsurance coverage for certain catastrophe losses related to group life and accidental death and dismemberment ("AD&D"), with partial coverage of nuclear, biological and chemical acts of terrorism. Through a combination of this agreement and our participation in a catastrophe reinsurance pool discussed below, the Company has coverage of up to \$485 million per event.

The Company currently participates in a catastrophe reinsurance pool with other insurance companies. This pool spreads catastrophe losses on group life and AD&D over approximately 18 participating members. The annual fee paid by the Company in 2014 to participate in the pool was less than \$30 thousand. As a member of the pool, the Company is exposed to maximum potential losses experienced by other participating members of up to \$4.2 million for a single event for losses submitted by a single company, and a maximum of \$10.5 million for a single event for losses submitted by multiple companies. The Company's percentage share of losses experienced by pool members will change over time as it is a function of our group life and AD&D in force relative to the total group life and AD&D in force for all pool participants. The reinsurance pool does not exclude war, nuclear, biological or chemical acts of terrorism. In February 2015, the Company was notified of the termination of the catastrophe reinsurance pool effective June 2015. The Company is exploring its options in the market for catastrophe reinsurance coverage.

Years currently open for audit by the Internal Revenue Service are 2011 through 2014.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

A. Financial Instruments with Off-Balance Sheet Risk

None

ANNUAL STATEMENT FOR THE YEAR 2014 OF THE STANDARD LIFE INSURANCE COMPANY OF NEW YORK
NOTES TO FINANCIAL STATEMENTS

B. Financial Instruments with Concentrations of Credit Risk

The Company's fixed maturity securities totaled \$131.0 million at December 31, 2014. The Company believes that it maintains prudent diversification across industries, issuers and maturities. The Company's corporate bond industry diversification targets are based on the Bank of America Merrill Lynch U.S. Corporate Master Index, which is reasonably reflective of the mix of issuers broadly available in the market. The Company also targets a specified level of government, agency and municipal securities in its portfolio for credit quality and additional liquidity. The weighted-average credit quality of the Company's fixed maturity securities investment portfolio was A- (Standard & Poor's) at December 31, 2014. The Company held \$4.2 million of fixed maturity securities below investment grade at both December 31, 2014 and 2013. At December 31, 2014, there were no valuation concerns regarding the Company's fixed maturity security holdings. Should the credit quality of the Company's fixed maturity securities decline, there could be a material adverse effect on the Company's business, financial position, results of operations or cash flows.

At December 31, 2014, commercial mortgage loans in the Company's investment portfolio totaled \$119.9 million. Commercial mortgage loans in California accounted for 29.0% of the Company's commercial mortgage loan portfolio at December 31, 2014. Through this concentration of commercial mortgage loans in California, the Company is exposed to potential losses from an economic downturn in California as well as to certain catastrophes, such as earthquakes and fires that may affect certain areas of the state. Borrowers are required to maintain fire insurance coverage. The Company's commercial mortgage loan portfolio within California is diversified by both location and type of property in an effort to reduce certain catastrophe and economic exposure. However, diversification may not always eliminate the risk of such losses. Historically, the delinquency rate of the California-based commercial mortgage loans has been substantially below the industry average and is consistent with our experience in other states. The Company does not expect a catastrophe or earthquake damage in California to have a material adverse effect on our business, financial position, results of operations or cash flows. However, if California experiences an economic decline, the Company could experience a higher delinquency rate on the portion of its commercial portfolio in California, which could have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

Mortgage Loans

For disclosure purposes, the fair values of commercial mortgage loans were estimated using an option-adjusted discounted cash flow valuation. The valuation includes both observable market inputs and estimated model parameters.

Significant observable inputs to the valuation include:

- Indicative quarter-end pricing for a package of loans similar to those originated by the Company near quarter-end.
- U.S. Government treasury yields.
- Indicative yields from industrial bond issues.
- The contractual terms of nearly every mortgage subject to valuation.

Significant estimated parameters include:

- A liquidity premium that is estimated from historical loans sales and is applied over and above base yields.
- Adjustments in interest rate spread based on an aggregate portfolio loan-to-value ratio, estimated from historical differential yields with respect to loan-to-value ratios.
- Projected prepayment activity.

Valuations for commercial mortgage loans measured at fair value on a nonrecurring basis using significant unobservable Level 3 inputs are sensitive to a number of variables, but are most sensitive to net operating income and the applied capitalization rate. Generally, an increase or decrease resulting from a change in the stabilized net operating income from the collateralized property would result in a directionally similar change in the fair value of the asset. An increase or decrease in the assumption for the capitalization rate would result in a directionally opposite change in the fair value of the asset.

Fixed Maturity Securities

Fixed maturity securities are comprised of the following classes:

- U.S. government bonds.
- U.S. special revenues bonds.
- Industrial and miscellaneous (unaffiliated) bonds.

The fixed maturity securities were diversified across industries, issuers, and maturities. The Company calculated fair values for all classes of fixed maturity securities using valuation techniques described below. They were placed into three levels depending on the valuation technique used to determine the fair value of the securities.

NOTES TO FINANCIAL STATEMENTS

The Company used an independent pricing service to assist management in determining the fair value of these assets. The pricing service incorporated a variety of information observable in the market in its valuation techniques, including:

- Reported trading prices
- Benchmark yields
- Broker-dealer quotes
- Benchmark securities
- Bids and offers
- Credit ratings
- Relative credit information
- Other reference data

The pricing service also took into account perceived market movements and sector news, as well as a bond's terms and conditions, including any features specific to that issue that may influence risk, and thus marketability. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary. The Company generally obtains one value from its primary external pricing service. On a case-by-case basis, the Company may obtain further quotes or prices from additional parties as needed.

The pricing service provides quoted market prices when available. Quoted prices are not always available due to bond market inactivity. The pricing service obtains a broker quote when sufficient information, such as security structure or other market information, is not available to produce a valuation. Valuations and quotes obtained from third party commercial pricing services are non-binding and do not represent quotes on which one may execute the disposition of the assets.

The significant unobservable inputs used in the fair value measurement of the reporting entity's bonds are valuations and quotes received from secondary pricing service, analytical reviews and broker quotes. Significant increases or decreases in any of those inputs in isolation would result in a significantly lower or higher fair value measurement. Generally, a change in the assumption used for the pricing evaluation is accompanied by a directionally similar change in the assumption used for the methodologies.

The Company performs control procedures over the external valuations at least quarterly through a combination of procedures that include an evaluation of methodologies used by the pricing service, analytical reviews and performance analysis of the prices against statistics and trends, back testing of sales activity and maintenance of a securities watch list. As necessary, the Company compares prices received from the pricing service to prices independently estimated by the Company utilizing discounted cash flow models or through performing independent valuations of inputs and assumptions similar to those used by the pricing service in order to ensure prices represent a reasonable estimate of fair value. Although the Company does identify differences from time to time as a result of these validation procedures, the Company did not make any significant adjustments as of December 31, 2014.
